

Refer to HERB FORMULAS FOR CLINIC AND HOME, page 8, file #2.8

2.8 NEUTRALIZING CORDIAL (Modified)

Rhubarb Tincture	80 ml
Cinnamon Tincture	64 ml
Hydrastis Tincture	40 ml
Spirit of Peppermint	8 ml
Potassium carbonate	16 grams
Simple Syrup	250 ml
Diluted alcohol (50%)	550 ml

Step 1. Dissolve 16 grams of potassium carbonate in 250 ml Simple Syrup

Step 2. Mix the tinctures, spirit and diluted alcohol.

Step 3. Mix both liquids, stirring or blending until KCO_3 is dissolved.

Step 4. Add additional diluted alcohol to the total (if necessary) to bring the total volume to 1000 ml.

Use a teaspoon or two for nausea, gas pains, dyspepsia, tenesmus, diarrhea AND constipation. An elegant pharmaceutical that may be the single closest thing to a universal GI tonic. Unfortunately it is no longer made by American manufacturers.

SIMPLE SYRUP

850 grams of WHITE sugar (any other form, such as
turbinado or dried sugar cane juice will ferment)
450 to 475 ml of water

Blend together, pour into a saucepan, and heat slowly until the sugar is completely dissolved. Will make a liter of simple syrup. Store in a cool place, but no refrigeration is necessary
